Our fall and winter stock is now complete, and n before have we been able to present to our patrons large and well assorted stock as we now have on hand large and well assorted stock as we now have on hands. We have been told by many enstomers that no other store does as well by them as we do. We certainly try to excel. We have the facilities and the disposition, and no one else ought to be better able to satisfy a customer than we. By years of study and systematic practice we have—to some extent at least—worked over the problems of profit-able buying, and this experience is as much to our one-tomers' benefit as it is to ours. If yon are not with us came to us; others have pever regretted it, and neither will you. All we ask is to compare prices and qualities, and you will find we can save you money.
